PLEASE ALLOW US TO MAKE COPIES OF YOUR INSURANCE CARD AND TO TAKE A PICTURE OF YOU. WE KINDLY REQUEST THAT YOU NOTIFY US PROMPTLY OF ANY INSURANCE CHANGES. PLEASE INITIAL AFTER REVIEWING EACH SECTION.

_____ **ACKNOWLEDGMENT OF RECEIPT OF NOTICE OF PRIVACY PRACTICES AND CONDITIONS OF TREATMENT:** I (we) acknowledge that I (we) have been provided and have reviewed the Notice of Privacy Practices (dated June 1, 2018) and Conditions of Treatment. I (we) understand that as part of my healthcare, North Texas Allergy & Asthma Associates ("NTAAA") originates and maintains health records describing my health history, symptoms, examination and test results, diagnosis, treatment and any plans for future care or treatment. I (we) understand that this information is utilized to plan my (our) care and treatment, to bill for services provided to me (us), to communicate with other healthcare providers and in other routine healthcare operations such as assessing quality and reviewing competence of healthcare professionals and as required or permitted by law without my (our) consent. The Notice of Privacy Practices provides specific information and complete description of how my (our) personal health information may be used and disclosed. I (we) understand that NTAAA reserves the right to change the Notice of Privacy Practices and will notify me (us) when a revised Notice of Privacy Practices is available.

_____ **AUTHORIZATION TO DISCLOSE PROTECTED HEALTH INFORMATION:** I (we) authorize NTAAA to release my (our) medical information and/or individually identifiable health information to me (us) or my (our) duly authorized representative (as noted below), representatives of local, state, or federal agencies and insurance companies or other organizations or entities as may be required or permitted under federal or state law or as may be required for review or payment of claims. I (we) further authorize NTAAA to release such information to physicians, hospital, or healthcare providers needing such information to treat me (us) or to review my treatment. I (we) understand that the specific information to be released may include, but is not limited to, history, diagnosis and/or treatment of drug or alcohol abuse, mental illness or communicable disease. I (we) also understand that this authorization may be revoked by me by a written and dated notice, except to the extent that disclosure of information has been made prior or receipt of such revocation.

Below is a list of persons, whom we may inquire and/or be informed about your general medical information, conditions, or diagnosis.

Emergency Contact: _____ Relationship: _____ Cell Phone #: _____

Information allowed to be released to above (please check): ___ All health information, OR

___ Visit Notes ___ Billing Inquiries ___ Diagnostic Results ___ General Calls ___ Consultation Reports ___ Other: _____

Secondary Contact: _____ Relationship: _____ Cell Phone #: _____

Information allowed to be released to above (please check): ___ All health information, OR

___ Visit Notes ___ Billing Inquiries ___ Diagnostic Results ___ General Calls ___ Consultation Reports ___ Other: _____

_____ **AUTHORIZATION TO MAIL, CALL, TEXT OR E-MAIL:** I (we) hereby authorize NTAAA physicians and staff to leave a detailed message regarding lab results or other clinical information related to my (our) care. This authorization allows NTAAA to contact me (us) by telephone at any number associated with the account, including wireless telephone numbers, and emails so that NTAAA can service the account or collect any amounts owed. I (we) may also be contacted through text messages or emails and the method of contact may include using pre-recorded/artificial voice messages and/or use of an automatic dialing device.

_____ **INSURANCE AND PAYMENT ACKNOWLEDGEMENT:** Our commitment is to provide the very best medical care to our patients while recognizing the need to limit services to only those that are necessary for each patient. To meet this commitment, we recognize the need for a definite understanding and agreement concerning our patient's healthcare and financial arrangements. Your clear understanding of our financial policies is important to our professional relationship. We participate and accept assignment for most insurance plans in the area. We submit claims to Medicare, Tricare, PPO, HMO, EPO, POS or any other insurance (excluding Medicaid as we do not participate in this program) on your behalf. **It is essential that you ensure we are a participating provider and provide us with your complete and accurate insurance information at the time your appointment is made.** It is important that all your insurance plan's requirements are met prior to providing services. This may include your payment of copays, deductibles, and any non-covered services at time of rendered service, and that pre-authorizations and required referrals are obtained prior to service. Even though we may submit insurance claims for you, your insurance coverage is a contract between you and your insurer and you are still responsible for payments and services regardless of the amount your insurance pays. If your insurance company requires an authorization or referral, it is the patient's responsibility to obtain this for the initial visit and for continuation of care (but we will assist where possible). It is your responsibility to pay for all services provided that are not covered by your insurance. That includes amounts denied or not covered by your insurance plan. We are happy to provide any services you need, but if your insurance plan does not cover a specific service, you will be required to self-pay for these non-covered services. If we have not received your payment from your insurance plan by 45 days after the date of service or the insurance plan has denied in full or part, we will bill the balance to you. Please contact our billing office if you have any additional questions about our fees, financial policies, your insurance coverage, or financial responsibilities.

_____ **ASSIGNMENT OF BENEFITS:** I hereby assign all medical benefits to which I am entitled to NTAAA, and I authorize NTAAA to release any information required to process claims, unless rescinded by me in writing. I authorize payment of medical benefits to NTAAA for services performed.

_____ **PATIENT PAYMENTS:** Payments of copays, deductibles, and non-covered services are expected at the time of service. Patients without insurance are expected to make payment or other arrangements ideally prior to the service being performed. We accept cash, checks, credit cards and health savings accounts (HSA). Checks returned for non-sufficient funds will be charged $25.00. You will receive a monthly statement (payable upon receipt) showing you your balance after insurance has completed their processing and payment of the eligible benefits. I acknowledge that failure to pay an outstanding balance or contacting the office will result in interest and late fees added to my account, but we do offer 0% financing & monthly payment plans for all accounts if they are in good standing. If your balance becomes more than 90 days old, then interest of 12% and late fees of $25.00 will be assessed monthly on overdue balances. We understand that medical bills are often expensive and thus we want to work with you to make sure it is affordable but can only happen if we have open lines of communication. If I am unable to pay in full at this time, I will make payment arrangements with NTAAA. Account balances that have not been paid within 120 days or are not on an approved payment plan will be turned over to a licensed collection agency.

_____ **OTHER FEES:** Our fees for medical services are comparable to other similarly trained physicians in the community and reflect the complexity of your specific needs, the physician time dedicated to your care, the specialized nature of the doctor's education and training and support costs associated with providing and coordinating your care. We will be happy to provide you with detailed fee information at any time. **Missed Appointments:** Please understand that when you reserve an appointment with one of our physicians, we are making a commitment to your medical care and this prevents another patient from receiving care at that time. To assist all our patients with appropriate access to our physicians, we may charge a self-pay fee for repeated appointments that are cancelled with less than 24 hours' notice. **Medical Forms:** The completion of disability forms, attending physician statements and other supplemental insurance forms all require physician and staff time to complete. Accordingly, a $50.00 fee may be charged to complete these forms.

I have completed this form with accurate information. I have read and understand my obligations and responsibilities. I acknowledge that I am fully responsible for providing correct insurance information, and payment of any services not covered or approved by the insurance carrier.

NORTH TEXAS ALLERGY & ASTHMA ASSOCIATES

PATIENT PORTAL AUTHORIZATION FORM

The Patient Portal is designed to improve physician and patient communication at North Texas Allergy & Asthma Associates (NTAAA). The patient portal is not designed to replace the face-to-face encounters, but rather to supplement those encounters. Once you are established as a patient and have provided us with your secure email you will be assigned a username and password. After your patient portal registration has been completed, you will be allowed the following:

- Update your contact information
- Request your own appointments
- Communication of laboratory results
- Review your medical summary, medication list, treatment history, office visits & pay your outstanding balance.
- Receive reminders through your email

The following will **NOT** be accepted through the Patient Portal:

- Receiving advice on the best course of treatment for your medical problem. All diagnosis will be made by your provider when you are seen for an office visit.
- Request for narcotics/controlled medications.
- Request for refill for medication not currently being prescribed by a NTAAA Provider

Online communications should never be used for life threatening, emergency communications or urgent requests. If you have an emergency, you should call 911. If you have an urgent request, please contact the office via telephone.

Patient Portal guidelines:

- If you forget your password, you may request another one through Patient Portal by clicking on the "Forgot Password" link.
- After you are finished accessing the Patient Portal be sure to logout and close your browser. This reduces the risk of someone else accessing your private information.
- Avoid using a public computer to access the Patient Portal.
- The Patient Portal is provided as a courtesy service for our patients. There is **no fee** to use the portal.
- We encourage you to use the portal at any time; however, messages are held for us until we return the next business day. Messages are typically handled within 2 business days. If your doctor is out of the office, your request may be held until your doctor returns to the office. If you have not heard from us within 3 business days, please call our office to check the status of your request.
- We reserve the right to suspend or terminate access to the patient portal at any time and for any reason.
- If your message contains too many complex issues we will ask you to come in for an appointment
- All information on the portal is considered part of your medical record.
- Patient or legal guardian must be at least 18 years of age to be eligible to access the Patient Portal.

How the Patient Portal Security Works: A secure web portal is a type of webpage that uses encryption to keep unauthorized persons from reading communications, information, or attachments. Secure messages and information can only be read by someone who knows the right password or pass-phrase to log in to the portal site. Because the connection channel between your computer and the website uses secure sockets layer technology you can read or view information on your computer, but it is still encrypted in transmission between the website and your computer.

Protecting Your Private Health Information and Risks: This method of communication and viewing prevents unauthorized parties from being able to access or read messages while they are in transmission. No transmission system is perfect. We will do our best to maintain electronic security. However, keeping messages secure depends on the secure message reaching the correct email address, and only the correct individual (or someone authorized by that individual) must be able to have access to the message. Only you can make sure these two factors are present. **It is imperative that our practice has your correct e-mail address and that you inform us of any changes to your e-mail address**. You also need to keep track of who has access to your email account so that only you, or someone you authorize, can see the messages you receive from us. You are responsible for protecting yourself from unauthorized individuals learning your password. If you think someone has learned your password, you should promptly go to the website and change it.

Patient Acknowledgement and Agreement: I (we) acknowledge that I (we) have read and fully understand this consent form and the policies & guidelines regarding the Patient Portal. I (we) understand the risks associated with online communications between my physician and me (us), and consent to the conditions outlined herein. In addition, I (we) agree to follow the instructions set forth herein, including the policies and guidelines set forth in the log in screen, as well as any other instructions that my physician may impose to communicate with patients via online communications. I (we) understand and agree with the information that I (we) have been provided.

GENERAL DISCLOSURE AND INFORMED CONSENT FOR MEDICAL & DIAGNOSTIC PROCEDURES

TO THE PATIENT: You have the right, as a patient, parent, or legal guardian, to be informed about the condition and the recommended medical or diagnostic procedure to be used, so that you may make the decision whether to undergo the procedure after knowing the risks and hazards involved. This disclosure is not meant to frighten or alarm you; it is simply an effort to make you better informed, so you may give or withhold your consent to the procedures recommended to you.

I (we) am (are) of sound mental and physical condition, and I (we) am (are) able to give informed consent. I (we) acknowledge that I (we) am (are) fully aware of the care, treatment, and/or services that I (we) am (are) going to receive that is subject to of this form. I (we) voluntarily request North Texas Allergy & Asthma Associates ("NTAAA") staff physicians, and such associates, and other health care providers as they may deem necessary, treat my conditions involving any organ system of the body, but primarily nasal allergy, eye allergies, asthma, eczema, urticaria, angioedema, headaches, and gastrointestinal symptoms.

I (we) understand that the following medical and/or diagnostic procedures may be necessary for me (us), and I (we) voluntarily consent and authorize these procedures as deemed necessary upon examination:

1) Skin testing (Percutaneous and Intradermal)
2) Patch tests
3) Immunizations
4) Spirometry & Niox
5) Blood or Imaging studies (CT, X-rays)
6) Oral challenges or desensitization's
7) Rhinopharyngolaryngoscopy (rhinoscopy)
8) Punch Biopsy

I (we) understand that my physician may discover other or different conditions, which may require additional or different procedures than those planned. I (we) realize that common to medical and/or diagnostic procedures is the potential for infection, hemorrhage, syncope, allergic reactions, and in very rare instances, even death due to severe systemic reaction. I (we) authorize my physician, and such associates, technical assistants and other health care providers to perform such other procedures, which are advisable in their professional judgment. I (we) understand that no warranty or guarantee has been made to me as to the result of any procedure or cure of any condition. Just as there may be risks and hazards in continuing my present condition, with or without treatment or procedure(s), there are also risks and hazards related to the performance of the medical and/or diagnostic procedures, which may be planned for me.

For example:

- For patients that start immunotherapy (allergy injections): I (we) understand that immunotherapy may result in complications of anaphylaxis and even death. The American Academy of Allergy, Asthma, and Immunology recommends that immunotherapy be given under a physician's supervision. This practice believes this position is medically appropriate and that you should always obtain your injection by trained personnel, either in our office or another medical setting. Thus, I (we) understand that the immunotherapy is to be administered under a physician's supervision. Furthermore, I (we) understand that it is required for me to wait in the waiting room **AT LEAST 30 MINUTES** after each allergy injection. If I (we) leave early, I (we) understand that it is against medical advice and will hold my treating physician and staff at NTAAA free of any liability.
- For patients that have anesthetics administered: I (we) understand that anesthesia involves the additional risks and hazards but I (we) request the use of anesthetics for the relief and protection from pain during the planned procedure. I (we) realize the anesthesia may have to be changed possibly without explanation to me (us). I (we) understand that certain complications may result from the use of any anesthetic, including respiratory problems, drug reactions, paralysis, brain damage or even death.

I (we) believe that (we) have sufficient information to give this informed general consent to treat. I (we) acknowledge that this disclosure and informed consent has been fully explained to me, that I (we) have read it or have had it read to me and that I (we) understand its contents.
